

## **Community Care Counselor**

LifeTime Resources is looking for a full-time Community Care Counselor (CCC). We are an Area Agency on Aging in Southeastern Indiana who serves five surrounding counties in assisting people to remain in their homes successfully.

The CCC is responsible for visiting our population in their home settings and giving them options to positively affect that person's ability to remain independent and at home for as long as possible. It's a rewarding job that allows the CCC to make a real difference in the lives of those whom we serve (aging and disabled individuals).

The successful candidate will be a creative and critical thinker who can "bob and weave" as the situation dictates. This means thinking holistically about the situation to help people solve their own problems, to find community or family supports to assist, or to recommend other avenues to help the person solve an unmet need. If you love social work and think of yourself as a "think outside the box" or "idea" person, this may be a fit for you.

**EDUCATION:** If you have a four year degree PLUS related experience, go ahead and submit your resume. Here is what we are looking for:

- If you have a four-year degree and related experience like assessments and/or creating care plans, give us a call or email and we may be able to work with you -- or --
- a Registered Nurse with one year human service experience -- or --
- a Master's Degree in Social Work, Psychology, Counseling, Gerontology, Nursing or Health Services

**BENEFITS:** We have the full complement of benefits including the possibility of a flexible schedule after six months of successful employment! Work from home (or wherever!) 2 days a week, or choose to work four ten-hour days and be off one day a week. Details at the interview.

**TRAINING:** We have a system of intensive training whereby you will be out in the field with a veteran staff member in the very first week! You will observe everything they do (visits, "paperwork," and anything else the position entails) and have opportunities to question them afterwards. After several weeks, you will start to assist and finally, when your trainer thinks you are ready, you will take over and your trainer becomes the observer. With this program of training, you get out in the field immediately with real-world experience right away.

**EXPECTATIONS:** Be able to pass criminal and BMV background checks. Once certified, must attend 20 hours of approved training each year; must have a valid driver's license and reliable transportation. Driving to the individual's home is required.
